

# AS4 Conformance Test Report

**Document:** PEPPOL AS4 / eDelivery Conformance Summary **Service Provider:** AL MERAK TAX CONSULTANT L.L.C (E-Numerak) **AP Seat ID (test):** PAE001147 **Participant ID:** 0235:104132266800003 **Date:** 2026-06-23

## 1. Purpose

This report summarises the conformance testing completed by E-Numerak's Access Point against the OpenPEPPOL Testbed, demonstrating compliance with the PEPPOL AS4 Profile v2.0 (eDelivery) and the UAE PINT-AE specifications. All suites below were executed with the **test PKI (G3)** certificate; they will be re-executed with the **production PKI** certificate for final accreditation.

## 2. eDelivery — Standalone Access Point suite (6/6 — PASSED)

| #       | Test case                                     | Result                                                                                     |
|---------|-----------------------------------------------|--------------------------------------------------------------------------------------------|
| TC2A.1  | TLS connection                                |  Pass  |
| TC2A.2B | AS4 message reception                         |  Pass |
| TC2A.3  | AS4 message submission                        |  Pass |
| TC2A.4  | Invalid certificate handling (CRL revocation) |  Pass |
| TC2A.5B | Large message reception                       |  Pass |
| TC2A.6  | Large message submission                      |  Pass |

Report on file: `TestBedReport-PAE001147-20260609T122213.pdf` .

## 3. PKI G3 suite (3/3 — PASSED)

| # | Test case                                                      | Result                                                                                     |
|---|----------------------------------------------------------------|--------------------------------------------------------------------------------------------|
| 1 | Valid certificate reception                                    |  Pass |
| 2 | Invalid certificate reception (rejected via signer-trust gate) |  Pass |
| 3 | G3 submission + signal                                         |  Pass |

Report on file: `TestBedReport-PAE001147-20260609T135555.pdf` .

## 4. UAE PINT-AE specification suites (PASSED — test PKI)

| Suite                             | Result  |
|-----------------------------------|---------|
| Billing 1.0.4                     | ✓ 12/12 |
| Billing 1.0.4 & AE TDD 1.0.3      | ✓ 12/12 |
| Self-Billing 1.0.4                | ✓ 11/11 |
| Self-Billing 1.0.4 & AE TDD 1.0.3 | ✓ 11/11 |

Covers: invoice & credit-note reception/submission (exact + wildcard match), invalid-document handling (Schematron + syntax), Message Level Status (MLS / ApplicationResponse), and AE Tax Data Document (TDD) reporting to the Tax Authority (C5). Reports on file (e.g. [TestBedReport-PAE001147-20260618T082253.pdf](#) ).

## 5. Technical conformance summary

| Layer      | Implementation                                                                      |
|------------|-------------------------------------------------------------------------------------|
| Transport  | AS4 / ebMS 3.0, One-Way/Push MEP, MTOM                                              |
| Security   | WS-Security: XML-DSig <b>RSA-SHA256</b> , Exclusive C14N, SHA-256 digests           |
| Encryption | Payload gzip + <b>AES-128-GCM</b> , key wrapped with <b>RSA-OAEP (SHA-256/MGF1)</b> |
| Receipts   | AS4 non-repudiation Receipt; eb:Error on failure                                    |
| Discovery  | SML/SMK + SMP dynamic discovery (exact + wildcard)                                  |
| Trust      | Recipient + signer certificate chain & CRL validation                               |
| Profiles   | PINT-AE Billing & Self-Billing (1.0.4), AE TDD 1.0.3                                |

## 6. Status & next step

- **Test PKI conformance: COMPLETE** across all suites above.
- **Production PKI re-run: PENDING** — to be executed once the production certificate is issued, after which this report will be re-issued with the production test-run references for final UAE accreditation.
